Research Engagement & Facilitation

- Goal: Encourage research compliance through problem-solving and outreach
- Team:
 - Marci Copeland (Export Control Officer)
 - Nadia Wong (COI Administrator)
 - Amy Green (COI Analyst)

COI Review Considerations

COIOC Review Levels

Administrative	Expedited/Subcommittee	Full
<ul style="list-style-type: none"> • Conducted by the COI Administrator on a rolling basis • For financial interests the COIOC has identified as low risk for conflicts of interest 	<ul style="list-style-type: none"> • Conducted by COIOC Members through email on a rolling basis • Primarily for financial interests that have a moderate risk but have been reviewed before 	<ul style="list-style-type: none"> • Conducted at the in-person monthly COIOC meeting (3rd Thursday of each month) • Primarily for new higher risk financial interests • To facilitate the full committee review, COI Staff conducts pre-reviews for these types of disclosures

Tips

- New financial interest (especially if related to research)- Recommend that individual contact COI Administrator to proactively address potential COI concerns and avoid delays in the COI review process (earlier the better)
- Form 700U (Non-governmental Sponsor)
 - Require scanned copy of completed form with handwritten signature for COI review
 - Researchers are responsible for submitting their original, wet-ink signed 700U to the Office of Research
- IRB Disclosures
 - Lead Researcher and Administrative staff completing IRB application should check with all research personnel whether or not they have any disclosable financial interests related to the protocol to avoid errors and delays

Tips

- KC 700U Question: Has this proposal been awarded or is it for industry sponsored research including clinical trials?
 - No- standard proposals that you do not know if will be awarded- Officer requests 700U at award stage
 - Yes- other proposals that will be awarded- Initiator required to upload the 700U in KC Proposal

Tips

- COI Team requests for additional forms and copies administrative contact in our records through email
 - Encourage faculty members to respond in a timely manner to avoid delays in their reviews
 - If you are not the correct administrative contact, please forward the email to the correct person
- Multiple COI policies may apply to the same research project depending on who the sponsor (and if applicable prime sponsor) are, and whether the study involves human subjects research

COI Improvements In Progress

- **KC COI**
 - Developing a fully electronic COI system with ERA Team and Kualu Co.
- **Industry Supported Clinical Research**
 - Developing a streamlined process to combine the COI review for these projects with Clinical Trial Administration, Industry Sponsored Research, SPA, ERA, and IRB
 - Proposed New Procedure: Require an uploaded 700U in the IRB application so COI has all the information necessary for the review
 - Potential Effects:
 - Recommend shortening or eliminating the time between submissions of proposal and IRB applications for a project
 - Improved communication between Officers and IRB
 - Less confusion from faculty since there would be one COI review for their project
